Heavy Duty Hybrid Coolant

PG Platinum Simple, Safe & Cost Effective

With a product life expectancy of 36,000 hours (1.5 million kms), PG Platinum is expected to outlive most engines in which it is used.

Coupled with the simpler servicing method, downtime and maintenance costs are reduced.

It is also safe to use in any engine, including those with silicon seals. The result is a superior product that is easier to handle, safer to use, performs better and lasts longer.
