Radiator Assembly

ENGINE FAN WORKING OVERTIME?

COOLANT RESIDUE VISIBLE WHERE IT SHOULDN'T BE?

With another summer here, now is the time to consider if your radiator is due for replacement.

Choosing a genuine radiator assembly means you are getting the same quality components and workmanship as when your Kenworth first left the factory. Beyond just a core replacement, a radiator assembly allows for faster removal and replacement, reducing labour costs and improving vehicle uptime.

Great price reductions across our radiator assemblies coupled with improved uptime for your truck or fleet certainly is a compelling reason to talk to your PACCAR Dealer about opting for a Radiator Assembly over a basic core replacement.

Available for Kenworth models: T359/T409/T609/T659/T909/T950/K200

OVER 50 VARIATIONS OF RADIATOR ASSEMBLY NOW REDUCED TO ONE PRICE OF

\$7,790^{ea}
