PACCAR connect

The All New Telematics Solution for Kenworth and DAF

Introducing PACCAR Connect, the telematics solution that allows our customers to work more quickly, easily and effectively. PACCAR Connect is the key to even more efficient logistics solutions. The possibilities are endless.

PACCAR KENWORTH DAF

PACCAR Connect is a telematics platform that allows you to monitor driver and fleet performance, whenever you want and wherever you are.

This intelligent and user-friendly platform will enable you to stay in control of your logistics processes, and to get the best out of your people and your vehicles.

Driver and fleet information is available via live tracking on desktop computer or mobile devices through easy-to-read and fully customisable dashboards and detailed reports that provide convenient and timely insights.

PACCAR Connect can also share vehicle data with third-party fleet management systems, allowing you the ability to integrate PACCAR vehicles into your business.

A comprehensive range of features are available for both the driver and fleet operator as standard.

Tracking and Routing

- Live GPS tracking
- Geofencing
- Vehicle trip details and trip log reports

Driver Performance

- Harsh braking alert
- Harsh acceleration alert
- Moving and stationary over-revving alert
- Overspeed alert
- Over-idling alert
- Driver scorecard

Vehicle Safety
