# Transport

**Only 100% quality products are given the Volkswagen Genuine name.**

## **Laboratory testing:**

Corrosion test in saltwater spray systems, UV resistance, environmental compatibility and many additional laboratory tests examine all the relevant material properties. The climate chamber subjects the products to extreme temperatures.

## **Endurance:**

Whether short distances, high-speed or route profiles of varying difficulty – durability under continuous load conditions is tested. The special road endurance test is carried out with a distance of 20,000 km using the maximum permissible load and a variety of different testing profiles.

## **Test track:**

Test drives with maximum acceleration both forwards and to the sides, for instance by weaving around obstacles, emergency braking or over cobblestones subject the accessories to extremely hard tests over and over again.
