Make sure you're providing Subaru logbook servicing

When you're servicing Subaru vehicles, the below factory approved genuine Subaru products are recommended to meet service schedule requirements.

Upper Engine Cleaner

Part No. SA459

Fuel Additive

Part No. SA718

Subaru Upper Engine Cleaner and Fuel Additive

Subaru Upper Engine Cleaner SA459 and Fuel Additive SA718 are the only products approved by the factory for use in Subaru vehicles.

Why use Subaru Upper Engine Cleaner & Fuel Additive?

- Fully compatible with the alloys and synthetics in a Subaru Boxer Engine.
- Meets factory maintenance and service schedule requirements.
- It is recommended that Subaru Fuel Additive is also used between service schedules and recommended every 6,000kms.

Why should you use Genuine Subaru Parts?

- Built to manufacturer's specifications
- Designed to fit right, first time
- Competitively priced
- Protected by manufacturer's warranty¹

1. Subaru Genuine Parts are covered by Subaru Australia's Genuine Parts and Accessories Warranty. For full warranty terms and conditions ask your authorised Subaru Genuine Parts Dealer, visit: www.subaru.com.au/warranty or call 1800 22 66 43. The Subaru Australia Genuine Parts and Accessories Warranty is in addition to the rights and remedies conferred on consumers by the Australian Consumer Law. The warranty does not affect those rights or remedies, except to the extent their application may lawfully be excluded.
