NQR 05 - Onwards	\$133

Meritor Centre Bearings

Ideal for most popular heavy-duty trucks. Rubber cushion pivots in the bracket, allowing +/- 5 degrees of driveline angularity. Reduced risk of premature bearing wear due to misalignment. Unique design protects the bearing against contamination without the use of external deflectors. Backward compatible with previous Meritor and current competitive designs.

CB2101211XSA	17N Centre Bearing Slotted cushion type	\$63
CB2106611XSA	18N Centre bearing Slotted cushion type	\$75

Meritor King Pin Kits

A choice of Meritor's Bronze or Ezi-steer low friction bushes can reduce steering effort and ensure longer service life. Large diameter king pins further extend service life and provide excellent durability. King pin seal prevents leakage and provides improved lubrication.

MERITOR EZI-STEER KING PIN KIT	MFS73 FRONT AXLE	\$404
	FG941 FRONT AXLE	\$290
MERITOR BRONZE KING PIN KIT	MFS73 FRONT AXLE	\$404
	FG941 FRONT AXLE	\$290

Meritor Universal Joints

Designed for both on and off highway applications. Triple lip sealing system keeps grease in and dirt out. Superior bearing package includes an innovative needle retention design to ensure correct assembly.

Isuzu Dealership Technicians Shine: Isuzu Australia Takes 3rd place at Worldwide I-1GP

The Isuzu World Technical Competition, better known as the I-1 Grand Prix (I-1 GP), took place on 30 October 2019 in Fujisawa, Japan, and attracted the best Isuzu technical talent worldwide to battle it out for the winning spot as the best Isuzu technical team.

The Isuzu Australia Limited (IAL) team, coached by Charlie Gracewood (IAL Service Technical Manager - WA, SA and NT), consisted of Matthew Radke (Black Truck Sales, Toowoomba, Queensland) and Michael Primmer (Winter and Taylor, Geelong, Victoria). The team had worked hard to place themselves on the podium, coming in third place. This placed them just behind USA in second place, and Japan in first place.

The competition tests technicians from the international Isuzu network on all things service-related—vehicle inspections, systems management, practical assembly, diagnosis, repair tests, mechanical measuring and problem-solving. The competition is split into two categories: global markets that sell vehicles above the Euro IV emissions levels (including Australia), and markets below that grade.
