Rebecca Patton – Parts Manager TRP Emerald, QLD

Q: What does PACCAR Parts offer you to best support you and your customers?

A: The team at PACCAR Parts work hard to ensure we have the best possible stock levels and that our orders are picked and delivered as soon as possible, with fast turn arounds for VOR (Vehicle Off Road) and stock orders. Having access to a Parts Distribution Centre that offers daily shipments from within the same State is a real competitive advantage out here in Emerald, and gives us an edge that many of our competitors would love to have.

Q: How do you work with your service department to ensure customer satisfaction?

A: Like so many other dealers operating both a workshop and a parts division, we continue to search for the best possible processes and communication methods to achieve great results. Getting the right people in the right roles is a challenge that everyone has right now, and we continue to put time and money into trying to achieve this.

FIND YOUR NEAREST DEALER WWW.TRPPARTS.COM.AU

Peter Mammarella – Manager TRP Somerton, TRP Ballarat, TRP Geelong, VIC

Q: How do you engage your local market to ensure their needs are met?

A: For us, we are dedicated to building relationships out in the field, and we do that through our outside sales reps (OSRs). We have had some challenges in the last couple of years, primarily with COVID, but once again our outside sales reps are out visiting customers, listening to their requirements, and ensuring that we are meeting their needs.

We're actively out there pursuing customer feedback and doing what we can to put the right levels of service in place. On top of this, we have our promotions, our range guides, we're stocking more parts than ever, and we're continually growing from the feedback we're receiving from our customers.

Q: What is important to our customers now, more than ever?

A: Availability is really important to our customers, as is back-up support – knowing that we're there to support them – and, of course, relationships. When I look at our customers, I see that over the last six months, they're really crying out for that support from us. They need us to be there for them as much as we need them to be there for us, and that's what we aim to do.

SPOTLIGHT ON

Jack Greig - WA State Manager CJD Group Truck Parts, TRP Bibra Lake

Q: What is important to our customers now, more than ever?

A: Availability, availability, availability. We live and die by our ability to keep the big trucks on the road. Obviously, we're a mining state and we're very dependent on iron ore and so forth, which means big trucks earning big money, so availability of parts means everything to us.

TRP Bibra Lake (CJD Group) 1 Discovery Dr, Bibra Lake WA 6163

New Roads, No Limits! This was the theme for our recently held PACCAR Parts and Service conference in Melbourne. For the first time in 3 years our dealership leaders and supplier partners all came together to participate in 3 days of aftermarket workshops, supplier interactions, factory tours, award celebrations and networking.

It was great to catch up with so many familiar faces and equally great to meet so many new people who have assumed Parts and Service leadership roles over recent years at PACCAR Dealerships right across Australia and New Zealand. Throughout this catalogue we put a spotlight on some of these leaders. No doubt you will recognise many of them.

Our 'New Roads, No Limits' conference theme focused on 4 key strategic objectives that will help drive our future, these being:

- Product Strategy: Our primary purpose is to support all Kenworth and DAF trucks throughout their entire life cycle. First fit original equipment parts as well as second owner TRP products and a large range of Trailer parts are our core product offering.
- Supply Chain Excellence: Our suppliers and logistics partners play a massive role to ensure that our customer UPTIME commitment is the best it can be. Technology and plain hard work is helping us optimise this.

- Network Capacity: Our strong growth is no fluke! New trucks sales have never been higher, and our dealers keep investing in new full-service dealerships as well as smaller TRP locations. PACCAR is also investing heavily in our local factory operations and warehouses. We are here for the long term!
- I Channels to Market: The ways in which our customers wish to do business with us is evolving. PACCAR is progressive here with programs such as PACCAR Parts Fleet Services, PACLease, PACCAR Privileges, and our Online Parts Counter. Digital marketing will also continue to play a growing role, allowing us to tailor products and services to your specific wants and needs.

The engagement from all our dealer and supplier delegates was first class and confirmed to us all that our special partnerships are clearly the strongest in the industry and have allowed us to navigate through challenging times, but it is this same strength that will also allow us to charter our future path together. **New Roads, No Limits!**

Radiator Assembly

1455646

四日

Engine fan working overtime? Coolant residue visible where it shouldn't be?

Don't wait until summer, now is the time to consider if your radiator is due for replacement.

Choosing a genuine radiator assembly means you are getting the same quality components and workmanship as when your Kenworth first left the factory. Beyond just a core replacement, a radiator assembly allows for faster removal and replacement, reducing labour costs and improving vehicle uptime.

Great price reductions across our radiator assemblies coupled with improved uptime for your truck or fleet certainly is a compelling reason to talk to your PACCAR Dealer about opting for a Radiator Assembly over a basic core replacement.

AVOID EXTRA COSTS!

REPLACE IN TIME!

CHOOSE DAF GENUINE!

One of the components that ensures DAF trucks meet stringent Euro 6 emissions regulations is the Diesel Particulate Filter (DPF) in the Emission Aftertreatment System (EAS).

This DPF keeps particulate matter within legal limits and ensures your DAF truck is running at optimum performance.

The DAF Genuine DPF is a fully cleaned and remanufactured OE unit. DAF has launched a unique cleaning process that is only used by DAF

and provides a DPF that is as good as new. It will not only last for the entire DAF recommended service interval but also provide certainty that your DAF truck remains compliant with Euro 6 emission regulations.

K127-1116-01A to -14A

Joel MacDonald - Parts Manager Gilbert & Roach, Newcastle

GILBERT & ROACH NEWCASTLE

Q: How do you work with your service department to ensure customer satisfaction?

A: The parts team works closely with the service department to ensure we are on top of scheduled jobs and that parts are ready when a truck arrives. We also have a dedicated parts interpreter to support the parts needs of our service department.

Q: What is important to our customers now, more than ever?

A: Supplying the right part, the first time at a competitive price is the most important thing to our customers. We do our best to ensure we keep the right stock to keep customers on the road with minimal downtime and expense. We also offer around-the-clock on-call parts and service. With the current supply chain challenges, increased inventory holdings have been a crucial part of our success over the last 24 months.

Matt Neilson - Truck Parts Manager Barry Maney Group, Mount Gambier

Q: What does PACCAR offer you to best support you and your customers?

A: PACCAR's strategically located dealer network in each state ensures ease of parts supply, as does its stringent MDI (managed dealer inventory) planned inventory system, which assists in identifying and forecasting demand.

With two distribution centers, one in Bayswater and one in Brisbane, stock replenishment happens within days, and most dealers utilise daily stock orders, as well as next day delivery. We also hold stock from what is recommended by PACCAR Parts as Mandatory Stocking items, this is a combination of fast-moving items and potential mission-disabling components.

Evolved, refined, technologically advanced, the new K220 takes the driver experience to the Next Level.

P MEMBERS

Glen Stevens - Parts Manager Brown & Hurley, Rockhampton

Q: What is important to our customers now, more than ever?

A: Availability of parts is more important now than ever before. With long lead times on new equipment, the PACCAR dealer network is really standing behind operators by meeting their customers' demands.

Brown & Hurley Rockhampton 985-1005 Yaamba Road, Rockhampton QLD 4701

Rod Leake - Spare Parts Mildura Truck Centre, Mildura

Q: What is important to our customers now, more than ever?

A: Availability of parts is the most important thing to our customers. It's what brings them through the door and it's what brings them back again. Having the right range of parts means people know they'll be able to complete their repairs and get their trucks back on the road the same day.

PACCAR Parts' inventory and ordering system is all geared around availability. Not just next day availability but on the same day availability, when the customer needs it. We set the bar high because that's what our customers expect, especially in the trucking industry where trucks can't be sitting around.

Mildura Truck Centre 293 Benetook Ave, Mildura VIC 3500

KT610FMC

Joel Bray - Parts Manager Inland Truck Centres Wagga Wagga

Q: How do you engage your local market to ensure their needs are met?

A: Keeping in close contact with our customers is one of the most important things we do. It's the main role of our outside sales reps, who keep our customers up to date with new products, specials, and the range we carry. Radio advertising and social media are the other key ways that we keep customers informed.

BASE AIR

Pressure Control Kits

\$2,020

Base Air® is a patented air
management system designed
for heavy vehicles equipped
with air suspension. Base Air®
combines two bespoke height
control valves, one Dual-Pressure
Protection Valve (DPPV), and advanced
cross-flow technology, to actively manage
the air throughout the undercarriage of a vehicle,
increasing stability across truck and trailer
To be installed by authorised PACCAR dealers
